Emergency Management relies heavily upon the community members and “Volunteerism”. During disasters.

State of California

Disaster Service Worker Volunteer Program

Disaster Service Workers (DSW) are volunteers who provide disaster relief service during a declared disaster. Disaster service is designed to aid in the response and recovery phases in a disaster or emergency. It does not include the day-to-day emergency response activities typically associated with, for example, law enforcement, fire services or emergency medical services.

The Animal DSW volunteers must be registered with Sonoma County Animal Services.

For an Application please email scasemergencyresponseinfo@sonoma-county.org Subject: A-DSW

Injuries sustained by DSWs are covered through the State of California Disaster Service Worker Volunteer Program (<http://www.calema.ca.gov/PlanningandPreparedness/Pages/Disaster-Service-Worker-Volunteer-Program.aspx>). It provides workers’ compensation benefits to registered Disaster Service Worker (DSW) volunteers who are injured while participating in authorized disaster-related activities, including pre-approved training. The Program also provides the local EOC with limited immunity from liability.
