Equestrian Education Partnerships
at Cloverleaf Ranch*

Introduction to TTouch for Horses
With Kathleen Aspenns, Tellington Equine Practitioner
and Judy McHerron

The TTouch Method is wonderful to learn to use on horses, to build confidence, release tension, improve performance, develop trust with the horse, and interact with horses in a way they enjoy. The horses love it. It's easy to incorporate into your everyday program with the horse and a useful hands on tool for ever equestrian to use.

In each session, you will learn new skills & useful elements of the Tellington Method step by step in a fun and supportive environment, in both bodywork and groundwork. These techniques will be presented in an easy to learn manner, with opportunities to practice and refine your technique during class. Consecutive sessions will build on your base of knowledge, and help you integrate different elements of the Method to creatively solve any performance or behavior challenge.

Open to people of all ages and levels of experience with horses.

Thursday, July 6th, August 17th, and September 14th, 2017 from 6-8:30 pm

Please RSVP by the Tuesday before the workshop

Come any one day \$75 or \$195 for the series
